Weniger als 20% leben in den industriestasten

Die meisten Industriestaaten werden bis zum Ende des Jahrhunderst einen «Population Collaps» erleben

Population decline, 2100 versus 2023, %

First wave regions	Decline, 2100 vs 2023, %	Population, 2100, million
Greater China	−56%	646
Advanced Asia	−29%	152
Central and Eastern Europe	−31%	230
Western Europe	−12%	378
North America	Population expected to increase by 2100 +24%	475
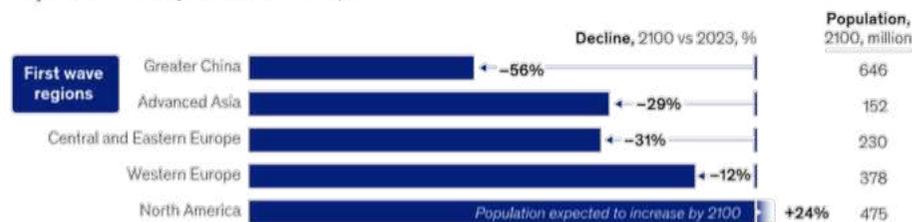

Gemäß den verfügbaren demografischen Projektionen wird die ständige Wohnbevölkerung der Schweiz bis zum Jahr 2050 auf etwa 10,4 Millionen Menschen anwachsen… ..bis ins Jahr 2100 allerdings auf 9.1 Mio sinken wird
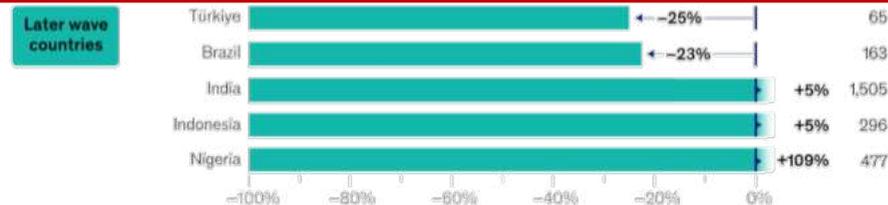

Later wave countries		
Türkiye	−25%	65
Brazil	−23%	163
India	+5%	1,505
Indonesia	+5%	296
Nigeria	+109%	477

Das alleine reicht nicht

und ist politisch schwer umsetzbar

Productivity growth, %

1997–2012 ▱ 2012–23 ● Annual future productivity growth needed to sustain GDP per capita growth,[1] %

Deutschland braucht eine doppelt so hohe Produktivität

Japan 2.0 — 2.2×
Italy 0.9 — 3.0×
United States 1.8 — 2.3×
Australia 1.7 — 1.3×

Spain 1.4 — 4.1×
Germany 1.4 — 1.9×
United Kingdom 1.1 — 2.3×
France 1.0 — 3.1×

China[2] 5.5 — 0.8×
South Korea[2] 3.3 — 1.4×

Um unseren Wohlstand zu wahren muss die Produktivität massiv gesteigert werden

swiss hospitality solutions

Das schaffen wir
nur mit dem Einsatz von

Technologie

swiss
hospitality
solutions

Und Technologie heisst

Energie

KI benötigt heute bereits mehr Energie,
 als die meisten Länder.

(nur 18 Länder incl. USA und China verbrauchen mehr Energie)

Politics has
great influence
over AI

What's on the Geo – Political Agenda re AI?

USA (Trump): Focused on prioritizing American innovation and **competitiveness**, emphasizing deregulation and private-sector leadership while addressing national security and economic dominance.

Europe (EU Leaders): Europe focuses on ethical AI, emphasizing human-centric, trustworthy, and sustainable technologies. The EU's strategy includes **strict regulatory frameworks** like the AI Act, promoting innovation while safeguarding privacy and rights.
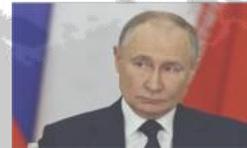

Russia (Putin): Emphasizes AI in military and cybersecurity, aiming to **enhance strategic capabilities** while fostering domestic technological development to counter Western dominance.

India (Modi): Advocates **leveraging AI for inclusive growth**, with initiatives in healthcare, education, and agriculture, balancing innovation with ethical considerations

China (Xi): Pursues global AI leadership via **aggressive investment, data dominance**, and integration into national security and economic planning.

swiss hospitality solutions
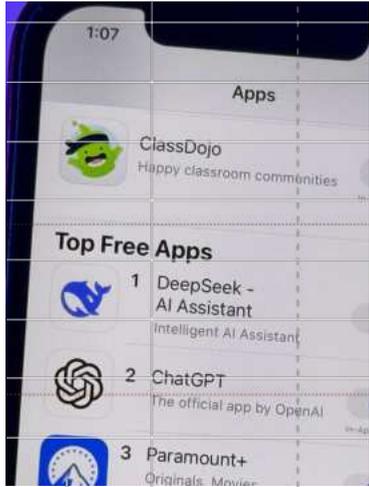

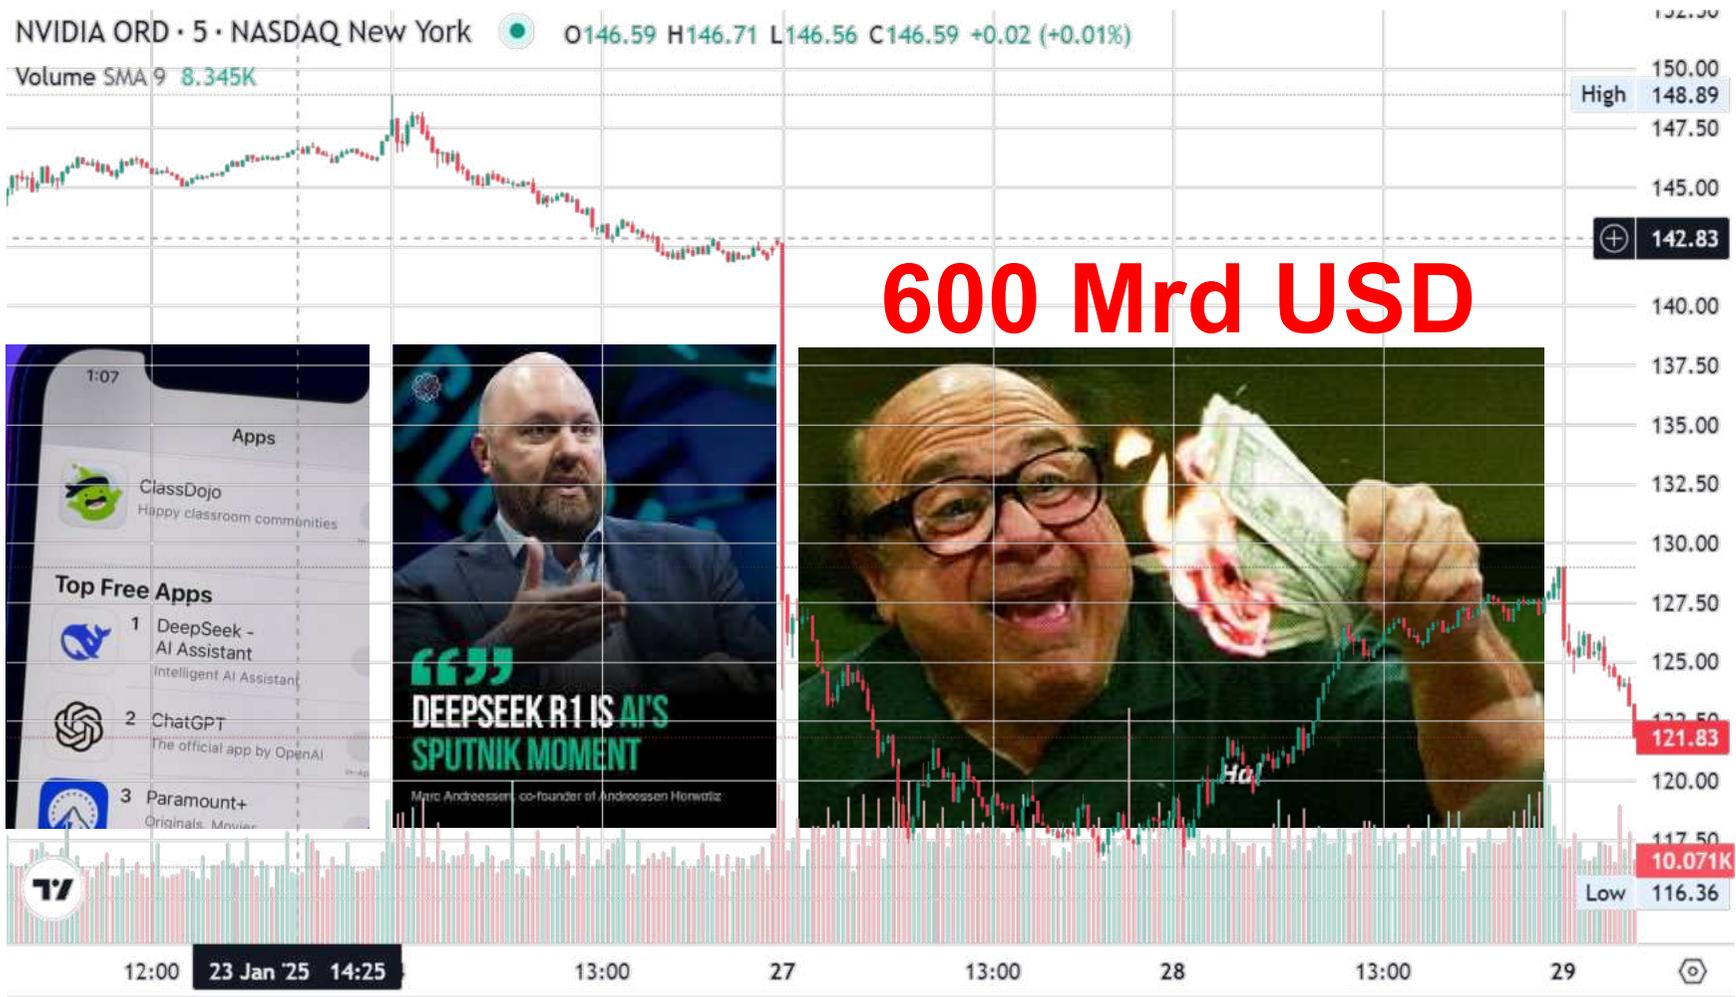

3 Thesen:

1) The Future of Profit muss über eine eine Steigerung der Produktivität erfolgen

2) Eine Steigerung der Produktivität bedingt den massiven Einsatz von Technologie (KI)

3) Für eine Tech-Strategie braucht es in der Zukunft sehr viel mehr Dimensionen, als bisher
